

VETERINARY CAREER PROSPECTS IN **EMERGENCY & CRITICAL CARE**

Be a part of the healthcare team at Beecroft Animal Specialist & Emergency Hospital.

An inspiring career. As a referral and emergency hospital, you will see a varied caseload, have clinical independence and access to advanced diagnostic equipment, and support from experts & specialists.

Training. Beecroft provides training, mentorship, support, and career progression.

ECC veterinarian at Beecroft. You will manage the triage and stabilisation of emergency patients, perform life-saving diagnostics and procedures. You will also oversee the care of critically ill in-patients and provide clinical support for surgeries like heart surgery, thoracotomies, orthopaedic procedures. Depending on your experience, training, and interest, you may perform emergency surgeries and endoscopic procedures.

Other duties include:

- Consultations for day and night emergency patients.
- Work closely with referring veterinarians and clients.
- Perform TFAST and AFAST ultrasounds for emergency and critical patients.
- Maintain medical records.
- Review and interpret diagnostic test results.
- Prescribe pharmaceuticals based on diagnostic results and physical exam findings.
- Work with the specialty teams with transfers to the appropriate specialists.
- Shift rotation of 3 to 4 days a week which may include day and night shifts.
- Each shift will be a scheduled 12-hour shift.
- Shifts may weekend days.

Continuous professional development. Our dedication to continuing education and training provides a wide scope for your professional development and career progression.

- Daily rounds provide collaborative case-based learning and team-based learning opportunities.
- Regular continuing education lectures and workshops, and journal clubs.
- Study leave and allowances for full-time veterinarians.
